Mano Vikash Janardhanan

Curriculum Vitae

mano@manovikash.com
https://www.manovikash.com

Employment

2021 - present **Quantitative Researcher**, *Balyasny Asset Management L.P.*, New York, NY

2019 - 2021 **Senior Research Scientist**, *Lifion by ADP*, New York, NY

2018 **Research Intern**, *Google Research*, New York, NY

Education

2014 - 2019 **PhD, Mathematics**, *University of Illinois at Chicago*, Advisor: Prof. Lev Reyzin, Chicago, IL

2009 - 2014 **MS, Mathematics**, *Indian Institute of Science Education and Research*, Thiruvananthapuram, Kerala, India

Experience

Industry Research

2024 - present **Quantitative Researcher**, Balyasny Asset Management L.P., New York, NY
- Worked in the Applied AI team. [1]
- Research and development of AI systems in support of investment teams.

2021 - 2024 **Quantitative Researcher**, Balyasny Asset Management L.P., New York, NY
- Worked in the machine learning team.
- Long short market neutral medium frequency alpha capture in US equities.
- Used principled machine learning techniques drawn from computational learning theory.

2019 - 2021 **Research Scientist**, Lifion by ADP, New York, NY
- Worked in the machine learning group.
- Worked on developing recommendation engine and semantic search.
- Led a group of 3 researchers.

2018 **Research Intern**, Google Research, New York, NY
- Worked in the Research and Machine Intelligence team.
- Worked on using machine learning for time-series forecasting.
- Advised by Dr. Vitaly Kuznetsov.

Academic Research

2016 - 2019 **PhD Thesis Research**, University of Illinois at Chicago
- Worked on models for graph learning and graph verification. [8]
- Worked on models for learning graphs using subgraph connectivity information. [7]
- Worked on anomaly detection problems in graphs. [2]
- Advised by Prof. Lev Reyzin.

Talks

2018 **Google Research Seminar**, New York, NY
Graph Verification using a Betweenness Oracle

2017 **Algorithmic Learning Theory**, Kyoto University, Japan
Graph Verification using a Betweenness Oracle

2017 **FSTTCS**, Indian Institute of Technology, Kanpur
Network Construction with Connectivity Constraints

Other Professional Activities

Reviewer, International Conference on Randomization and Computation (RANDOM 2018), Algorithmic Learning Theory (ALT 2019), Conference on Learning Theory (COLT 2019)
